CHIEF EXECUTIVE AND PRINCIPAL'S WELCOME

Dudley College of Technology is committed to listening to, and working with, parents and carers of the young people who study with us.

Last year you told us you would like a way to hear more from the College about the progress of the young person you care for. This feedback has led us to develop **MyDudleyCollege** for parents and carers. This is a web-based application, that you can access on a smart phone or through a web browser on a computer or tablet.

You will need to download the App and confirm your details in the form at the link opposite and then we will email you a password along with details of how to activate the account. Through the App you will be able to see if your young person is attending classes, see college news and view their timetable.

We will be continuing to develop the App, so we welcome suggestions as to what you would like to be able to see more information on. You can send through ideas to: learner.services@dudleycol.ac.uk.

Thank you for taking the time to join our network and downloading MyDudleyCollege parent portal.
