

## Supply Chain Funding 2023-24

Dudley College of Technology receives funding from the West Midlands Combined Authority (WMCA) and collaborates with supply chain partners to support the delivery of learning. These partnerships and initiatives demonstrate Dudley College of Technology’s commitment to improving skills and employment opportunities in the West Midlands, aligning with the WMCA’s broader goals for the region’s economic development.

As part of our agreement with the WMCA, Dudley College of Technology is required to report on the actual level of funding paid and retained for each of our supply chain delivery partners by the 31<sup>st</sup> October each year. This reporting requirement ensures transparency and accountability in the use of public funds for educational purposes. This information for the funding year 23/24 is available below.
