

Supply Chain Funding 2024-25

Dudley College of Technology receives funding from the **West Midlands Combined Authority (WMCA)** to support the delivery of high-quality learning opportunities. Through strategic collaboration with supply chain partners, the College plays a key role in enhancing skills and employment prospects across the region - contributing to the WMCA's wider ambitions for economic development.

In line with our funding agreements with the WMCA, Dudley College of Technology is required to publish an annual report detailing the actual funding paid to and retained for each of our supply chain delivery partners. This report, due by **31st October each year**, promotes transparency and accountability in the use of public funds for education.

The funding information for the **2024/25 academic year** is provided below.

Supply chain Details						
1 st August 2024 – 31 st July 2025
